##### **Belgium, a country with a lot of possibilities!**

My opinion about Belgium is that it is a very nice country to visit. You have a lot of possibilities to pass your time. When you are interested in the history of the country, you can visit a lot of museums for example about World War II. When you are more an adventurous person you can pitch your tent somewhere in the Belgian Ardennes. If you want to satisfy your kids, you can go to one of the many amusement parks that Belgium has, for example Plopsaland, Walibi, Océade,....

What's also very recommendable is to visit the Belgian coast. You can have a nice long walk on the beach. You can see that there are a lot of things to go through in Belgium, so I'm sure you'll never be bored!!

##### **Belgium**

Belgium is a great country. Even though Belgium has the reputation that it rains a lot here, in summer it can be up to 30 degrees. Those are great days to enjoy one of our fine local beers on a terrace. The Ardennes is a nice region in Belgium with a great landscape. Not only can you enjoy the view there, but you can do a lot of activities like kayaking, mountain biking,.... Some cities in Belgium are certainly worth a visit because of their rich history. People who are not that interested in history but more in shopping, will like those cities as well as they have many shops. In summer, the coast of Belgium is very attractive. You can sunbathe or enjoy a nice refreshing ice cream. A little bit up to the West, you will find the "Westhoek". If you are interested in World War I, you will like this region for sure. It has many remains of the First World War and there are a lot of museums.
